Work Experience

Ebitaus Private Limited UI UX Designer MAR 2025 - PRESENT

Ebitaus is a new-age fintech and compliance product company.

- Led the design of a secure entity KYC workflow platform with multi-party collaboration and digital signing. Managed the complete UX lifecycle from research to responsive web UI.
- Redesigned and enhanced UX for a corporate documentation platform, reducing friction in collaboration and eSigning across multiple stakeholders.

E DADDY - Auto tech UI UX Designer APR 2023 - MAR 2025

E DADDY is an electric vehicle manufacturing and automotive technology company.

- Designed a vehicle telematics web platform with highly enhanced, data-driven interactive infographics for real-time VCU and BMS insights.
- Redesigned the internal ERP system (Inventory, CRM, Sales) by reorganising cluttered modules into a clear, task-oriented structure resulting in:
 - 30% faster onboarding for new customers (less training effort)
 - 35-45% reduction in task steps across key workflows
 - Improved lead → customer conversion clarity by removing friction points in CRM flows
 - Better production pipeline visibility, enabling teams to track vehicle orders and assembly status with fewer back and forth screens
- Built a service center app to streamline after sales tracking and service workflows.
